

News Survey

Question: With all the features now available (including permanent online archives), would you be able to do without The Shores News in its current format, to help save the Association about \$7,000 each year?

Results:

Total Participants = 41

Yes = 22 - 53.7%

No = 19 - 46.3%

Responses:

1. The Shores News reminds the part timers what is going on at the lake!
2. Using a computer alone would not completely inform all our residents. It's almost like forcing everyone to buy a computer just to get the news.
3. I enjoy reading it at locations away from the computer.
4. I don't think this is the most effective way to gather information on this topic given that I don't believe the older people in the community use the website. I believe you should run an article within the paper explaining the cost and asking for opinions
5. I love the Shores News. My wife and I live in Toledo Ohio and love to see what is going on in our NE Ohio neighborhood.
6. I like the shores
7. I don't get it anyway!!!!!!
Bill Keener, lot 285. I pay my dues and assessments!!!!!!

\$7,000? Isn't that true?
8. I like the shores news, because anyone's opinion can be heard without censorship
9. My vote is with the understanding that the information, including announcements, meeting minutes, budget information, feature stories, etc. will be available on the web. In fact, I suggest that the Shores News be published on the web from now on.
10. Although, it would be nice to include the stories about the community on the website.
