

FISHING LICENSE REQUIRED ON LAKE ROAMING ROCK

I am asked this question many times a year. Do I need a fishing license to fish on lake roaming rock, and the answer is partially yes. If you are fishing from a boat or if you are fishing from land other than yours then the answer is yes, you do need a fishing license. Only when you are fishing from land that you own do you not need a license. Fishing license requirement starts at age 16 so check your fishing regulations, also check the regulations for daily bag limits. The ODNR will site you for this while they are on patrol of our lake.

Then the question comes up, I thought we live on a private lake, Well the answer to this question is no. Lake roaming rock is a state owned body of water with a private access and all laws apply. So to avoid any confusion abide by the regulations and properly registers your watercraft, make sure you have the proper safety equipment and if needed purchase your fishing license it's a lot cheaper than a citation.
