

The Kid's Fishing Seminar

The Kid's Fishing Seminar will be held on Saturday, June 8th (10:00 AM to 12:00 noon). At this event, we invite parents and grandparents to bring their kids to learn the basics of fishing. We give each child a new rod, reel, and packet of fishing gear and teach them the basics of rigging and how to cast. We provide a lunch for everyone and send them home with their new gear to practice. Please complete form and return to fishing club.
